

REMARKS/ARGUMENTS

Claims 1-13 are pending in the present application.

A Replacement Drawing Sheet is provided to replace the original drawings of Figs. 1, 2, and 3 containing a description of the character references. The Replacement Drawing Sheet provides Figs. 1, 2, and 3 without the description of the character references, which has been deleted from the original Figs. 1 and 2, to be added to the Brief Description of the Drawings of the specification at page 5, lines 1-9. Thus, the support for this amendment is found in the original drawing as filed, which provides the same description of the reference characters.

Replacement tables are provided to correct or complete the references to various units in the specification. Table 10 has been amended in column 1, row 7, to recite “(kJ/m)” with respect to the units of Charpy impact strength. Likewise, Table 13 has been amended in column 1 (row 3) to recite “(g/10 min)” with respect to units of MFR; (row 5) to recite “(%)” with respect to the units of total luminous transmittance; and (row 6) to recite “(J)” with respect to the units of total absorbed energy.

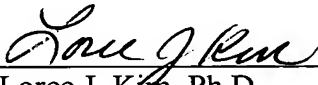

No new matter is believed to have been added by the present amendment. An action on the merits and allowance of the claims are requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
